## Biography

Dr. Miguel Stanley has dedicated 25 years to advanced dentistry and the undeniable connection between oral health and general health. With a license to practice in the UK and Dubai, he practices exclusively in Portugal, where he founded the [White Clinic](#) in 1999. A Leading Dental Center of the World, it has consistently evolved from a pioneering and advanced biological dental practice to a high-tech, comprehensive clinic with a 360° approach to health, wellbeing and longevity.

With training in implant dentistry, cosmetic dentistry and functional occlusion, Dr. Miguel Stanley's innovative approach to oral healthcare has successfully shifted the outdated paradigm that oral health and general health are separate and consistently advocates that when they are contemplated as one, optimal wellness is gained. His passion for teaching and the exciting manner in which he shares his experience and knowledge stands out on stage, where he has given over 200 keynote lectures in more than 50 countries, on topics such as advanced implantology, prosthodontics, complex oral surgery, aesthetics, dental avatars, practice management and ethics, as well as his very own "No Half Smiles" work philosophy. He is one of the first dentists to ever give a TEDx talk and the only to host a documentary on dentistry for [National Geographic](#). He is an adjunct professor at the prestigious [UPenn](#), the University of Pennsylvania in the USA, and is also on the board of the recently created Innovation Society at the [Harvard School of Dental Medicine](#).

Dr. Miguel Stanley is the founder of the [Slow Dentistry Global Network](#), a non-profit organization focused on improving patient experience and safety during a visit to the dentist, with members in over 60 countries. He is the Vice President of the [Digital Dentistry Society](#), as well as a member of many international scientific and academic organizations, and has published several studies and articles over the years. Recognized as a pioneer in clinical implementation in many areas of advanced technology, he is a consultant and key opinion leader for leading companies in the industry. He is the co-founder of Missing Link, the world's first AI powered communication tool that is bridging the gap between dentists, general practitioners and patients.

Passionate about technology, biological, integrative and functional dentistry and regenerative medicine, Dr. Stanley spends most of his days in the clinic working with his team, actively driving innovation in healthcare, introducing novel concepts and therapies in order to transform and improve the lives of his patients.

Explore his insights further through his podcast "[Biting into Healthcare](#)", and discover his impactful work at [miguelstanley.com](http://miguelstanley.com).

Adjunct Professor at Penn Dental Medicine, University of Pennsylvania

Board member of the Innovation Society – Harvard School of Dental Medicine

## Congresses Organized

---

### **SENAME Congress**

12th SENAME International Congress

SENAME addresses all matters related to implantology, a specific area of Dental Medicine and organizes an annual congress inviting the world's most famous doctors and scientists to share their knowledge. SENAME was founded in 1999 and it is represented internationally in 17 countries.

SENAME strongly invests in the future of implantology and in 2015 held its annual event in Lisbon, hosted by Dr. Miguel Stanley. The event supported development and research in the field of implant dentistry and promoted new talents. Named "The Future of Dentistry" this event included 23 world recognized keynote speakers.

## Social & Charitable Contributions

---

### **Mundo a Sorrir**

[www.mundoasorrir.org](http://www.mundoasorrir.org)

White Clinic helps underprivileged children with free dental care, including orthodontics so that they can look better and earn a better living in the future. As an active member, Dr. Miguel Stanley personally helps promote and develop the association. In December 2016, Dr. Stanley organized a concert in which he performed 12 original tracks to an audience of over 300 people with all profits being donated to Mundo a Sorrir and The Humble Smile Foundation.

### **The Humble Smile Foundation & The Humble Brush**

[www.humblesmile.org](http://www.humblesmile.org)

Association that helps children in need of oral care and produces ecological, biodegradable bamboo toothbrushes. Dr. Miguel Stanley is a Global Ambassador for the foundation since 2016.

### **END IOM**

Dr. Stanley was invited by Prof. Raman Bedi (Kings College London and former CDO of the United Kingdom) to lead the fight against Infant Oral Mutilation as part of The Global Child Dental Fund.
